Thursday, June 15, 1871. Discussion on the Fishery Question by the Righ Commissioners

We gave recently a brief summary of the questions that may come before the Dominion Parliament, respecting the Treaty of Washington,—and pointed out that the Fishery question was the only one likely to cause much trouble. As an instance of the opposition looming up, the Legislature of New Brunswick has proposed unanimously against the Treaty articles on the Fisheries,—maintaining that the privilege to fish on the coast of the United States, and to carry their fish and fish oil into that country the consecution of Congress, to concede free fish and fish oil into that country their fish and fish oil into that country there were proposed and fish oil as an equivalent for the use of section to consider the proposal was one on which they had that it would not be constituted and that it would not be passengers per steamer milly Harris, beg fish that it would not be passengers per steamer milly Harris, beg fish the commissioners and that it would not be passengers per steamer milly Harris, beg fish the proposal was one on which they had that it would not be passengers per steamer milly Harris, beg fish they one instructions, and that it would not be passengers par steamer milly Harris, beg fish the passenger proposal was factor of its entire trip, which would not be any arrangement mill harris, beg fish for them is commissioners and that it would not be any arrangement mill harris, beg fish for them is commissioners and that it would not be passenger and that it would their fish and fish oil into that country duty free were not an equivalent for giving up the inshore fisheries, and hold that duty free were not an equivalent for giving up the inabore fisheries, and hold that
the coasting trade of both countries
should be thrown open, which
with reciprocal commerce should be the only acceptable equivalent; and if such an equivalent cannot be had, then, to maintain the system of protection which now exists. The latter, according to the Attorner Countries and in according to the Attorner Countries and the according to the Attorner Countries and the equivalent is being the according to the Attorner Countries and the equivalent is being the second to the equivalent in the system of payment that might be found necessary to complete an equivalent in the system of payment that might be found necessary to payment that might be found necess according to the Attorney General of that Previner, stands thus: "In 1866, there were 350 fishing licenses taken out by American ressels. In 1869, only 25 or 30. The Dominion was then forced to adopt a new and different policy, exeluding American fishermen from our waters, not standing upon her rights en-tirely, and enforcing the three-mile limit from beadland to headland, but only the three-mile limit from the shore, following the sinuosities of the bays and harbors. The Nova Scotians, too, being incensed against the Treaty, creates a probability that the delegates from the Maritime Provinces will give a solid vote against the fishery articles when they come be-fore Parliament. If a majority be found to reject the fishery articles, still the balance of the Treaty would become operative,—particularly that portion of the Treaty respecting the Alabama claims. So far, however, as the Dominion is concerned, the Fishery question will be the absorbing issue, and in order to throw some additional light on the question, we append an extract from the proceedings of the High Commissioners on that subject. It is as follows:

"The subject of the fisheries was fur-ther discussed at the conference on the 7th, 20th, 22nd and 25th of March. The American Commissioners stated that if a value of the inshore fisheries could be ascertained the United States might pre- TO CLOSE CONSIGNMENTS fer to purchase for a sum of mouey the right to enjoy in perpetuity the use of these inshore fisheries in common with British fishermen, and mentioned one million dollars as the sum they were pre-

pared to offer. The British Commissioners replied that this offer was, they thought, wholly inadequate, and that no arrangement would be acceptable of which the admission into the Dominion free of duty of Long and Short Dusters, fish, the produce of the British fisheries, 1 case Miners Gloves, did not form a part, adding that any atrangement for the acquisition by purchase of the inshore fisheries in perpetuity was - cases Mole and Cord Pants, open to grave objections.

The American Commissioners inquired whether it would be necessary to refer any arrangement for purchase to the jel5 Colonial or Provincial Parliaments.

The British Commissioners explained that the fisheries, within the limits of meritime jurisd ction, were the property of the several British colonies, and that it would be necessary to refer any arrangement which might affect colonial or rights to the Colonial or Tuesdays. Fares single \$6; Return Ticket \$10.

B. W. PEARSE, of the several British colonies, and that property or rights to the Colonial or Provincial Parliaments, and that legislation would also be required on the part of the Imperial Parliament. During these discussions the British Commissioners contended that these inshore fisheries were of great value, and that the most satisfactory arrangement for their use would be a reciprocal tariff arrangement and reciprecity in the coasting trade, and the American Commissioners replied that their value was over-estimated; that the United States desired to secure their enjoyment not for their commercial or intriusic value, but for the purpose of removing a source of irritation, and that they could hold out no hope that the Congress of the United States would give its assent to such a tariff arrangement as was proposed, or to any extended plan of reciprocal free admission of the products of the two countries; but that inasmuch as one branch of Congress had recently more than once expressed itself in favor of the abolition of duties on coal and salt, they would propose that coal, salt and fish be reciprocally admitted free, and that inasmuch as Congress had removed the duty from a portion of the lumber heretofore subject to duty, and the tendency of legislation in the United States was towards the reduction of taxation of duties in proportion to the re-duction of the public debt and expenses, they would further propose that timber be admitted free from daty from and after the 1st of July, 1874, subject to the

approval of Congress, which was neces-eary on questions affecting import duties. The British Commissioners at the con-ference on the 17th of April stated that they had referred this offer to their Government and were instructed to inform the American Commissioners that it was regarded as inadequate, and that Her Majesty's Government considered that free lumber should be granted at once, and that the proposed tariff con-cession should be supplemented by a

cession should be supplemented money payment.

The American Commissioners them stated that they withdrew the proposal which they had previously made of the reciprocal free admission of coal, salt and fish, and of lumber, after July 1, and fish the lumber is a lumber in the lumber in the lumber is a lumber in the lumber in the lumber is a lumber in the lumber in the lumber is a lumber in the lumber in t settlement, and for the purpose of removing a source of irritation and anxiety; that its value had been beyond the compact by the purpose of removing a source of irritation and anxiety; the state of the purpose of removing a source of irritation and anxiety; that its value had been beyond the compact by the purpose of removing a source of irritation and anxiety; the purpose of removing a source of irritation and anxiety; the purpose of removing a source of irritation and anxiety; the purpose of removing a source of irritation and anxiety; the purpose of removing a source of irritation and anxiety; the purpose of removing a source of irritation and anxiety; the purpose of removing a source of irritation and anxiety; the purpose of removing a source of irritation and anxiety; the purpose of removing a source of irritation and anxiety; the purpose of removing a source of irritation and anxiety; the purpose of removing a source of irritation and anxiety; the purpose of removing a source of irritation and anxiety; the purpose of removing a source of irritation and anxiety; the purpose of removing a source of irritation and anxiety; the purpose of removing a source of irritation and anxiety; the purpose of removing a source of irritation and anxiety; the purpose of removing a source of irritation and anxiety; the purpose of removing a source of irritation and anxiety in the removing a source of irritation and anxiety in the removing a source of irritation and anxiety in the removing a source of irritation and anxiety in the removing a source of irritation and anxiety in the removing a source of irritation and anxiety in the removing a source of irritation and anxiety in the removing a source of irritation and anxiety in the removing a source of irritation and anxiety in the removing a source of irritation and anxiety in the removing a source of irritation and anxiety in the removing a source of irritation and anxiety in the removing a source of irritation and anxiety in the removing a source of irritation and anxiety

GUNPOWDER.

Soxer-Henry cartridge, and of which they entirely approve, is known as 'Curtis and Harvey, No. 6.' Several other descriptions manufactured at the Government Factory, Waltham Abbey, have also been tried, but have not afforded the same uniform accuracy of shooting. There appear to be difficulties, confined, it is believed ction of expense, in producing a powder at Waltham Abbey, in all respects equal to 'Curtis and Harvey, No. 6;' but the Committee, keeping in view the importance of maintaining the great accuracy of shooting of the Martini-Henry rifle, recommend that no powder should be used for its ammunition that does not give results at least equal to those obtained in the Committee's experiments, whether such powder be obtaine

from the Government Factory or from the trade."

Messrs. Curtis and Harvey's powder was employed by Mr. Henry during the competition for accuracy of shooting and as the results then attained were satisfac-tory, the Committee have, without making trial of the powder of other manufacturers, continued its use as a

INBANKRUPICY.

(Before Chief Justice Begbie and Mr. Justice Croase.) WEDNESDAY, June 14th.

In se David Cameron, a bankrapt Mr. Justice Crease delivered the decision : This is a motion for an order for £250 to be paid over to the assignees. The result is that from a review of all cases the policy does not pass to the assignees by operation of taw. The Chief Justice and myself, do not agree in this, but do agree on the second point that a portion of the bankrupts pension should be set aside for the benefit of the creditors, and we think that the sum of £150 is sufficient to meet the case. The judgment of the Court is therefore, that the judgement of the Court below, be affirmed and that £150 per annum out of the pension be set aside for the benefit

of the creditors.

The Chief Justice concurred, stating that £150 will go to the assignees, and £350 per annum to the bankrupt

MAINLAND, PARAGRAPHS .- Everything connected with farming in the upper country is flourishing, and agricultural produce is bringing good prices. The promise of abundant crops and the ready sale for produce-ensure for farmers a year of great prosperity. The Garciament contemplate opening up the North-arm trail from New Westminster to Betts' farm, a distance of about 16 miles. Mr. Claudet, on behalf of the Government, made an inspection of the trail on Saturday ung has been accomplished, and is still being proscuted with energy by the various set-tlers in the district. Gerow & Johnson's express, with a Cariboo mail, came down on Monday from Yale to Now W cance. The Lillooet will not be down until to-morrow. Mr. Charles Danielson, formerly of the Quesnel ferry, who was lately attacked with paralysis, arrived at New Westminster on Monday night by canoe; he goes to Victoria where he purposes becoming an in-door patient at the Hospital.

OMINECA.-The Mainland Guardian learns Ouisica. The Mainland Guardian learns gins, Bourbon whiskeys, etc., will be offered that the two new creeks lately discovered at this morning at 11 o'clock, by J. P. Davies Omineca are said to be very rich, and the extent of the Peace river diggings now known will afford profitable employment to all who choose to go up. The snows had been heavy, so that some time will yet clapse before work can be generally commenced. The routes at present traveled are principally by boats carrying up to 15 tons, from Fort George, via Stewart river to Tatlah Landing, and thence to Germansen creek by pack animals, which are now numerous. Pack animals cross from Quesnelmouth to the opposite side of the river, where they are loaded and proceed along the Telegraph trail to Fraser Luke. Freight by this route to Germansen creek, from Yale, costs about 37½ cts.; that is, from Yale to Quesnelmouth, say 7cts.; Quesnel mouth to Tatlah Landing, 122 cts.; Tatlah Landing to Germansen Creek, 18cts. These prices, however, will be much reduced as the reason advances, particularly after the trail is completed from Giscome Portage. Passengers have to pay from Quesnelmouth to Tatlah Landing from \$10 to \$12.

THE MECHANICS' INSTITUTE .- A meeting was held yesterday afternoon, at which it was resolved to reduce the monthly expenses of the Library, in order to keep the Institute from closing. A scheme was submitted to the effect. We understand that the grand the effect. We understand that the grand piano, which the association can do without, has found a purchaser; this wil reduce the debt some \$400; and with a benefit tendered, in the shape of a musical and far-cical entertainment at the Theatre, by ama-teurs; together with the use of Capt. Starr's sew steamer, an offer of which has been given and accepted, -it is believed the concers, which most people would regret to see the city deprived of, will still be maintained in its usefulaess amongst us. Measures are being taken to incorporate the Institute as early as practicable.

Civic JEALOUSIES .- The opening of the International-Exhibition has caused a revivaof the old feeling of jealousy between the civic dignitaries of Edinboro and Dublin. The chief magistrates of both cities were invited to take part in the ceremony, but the Lord Mayor being given a precedence over the Lord Provost, the latter took offence and stayed away. This dispute is about as ridicalous as the quarrel between the Corporations of Hastings and Dover for the precedence of the Cinque Ports.

Tax U. S. Senate ordered the imprionment for refusing to disclose by what means be procured a copy of the Treaty. Mr. Greeley promises to double hts salery during his mprisonment. Mr. Ramsdell, in addition to his position as correspondent of the Tribune, is also correspondent of the Cincinnati Com-mercial. Col. Halstead will, of course, not be behind Mr. Greeley in liberality. Mr. Rams-dell will have two double salaries.

FROM NEW WESTMINSTER .- The steamer Enterprise, Capt. Swanson, arrived yesterday afternoon, at 4:15, with the following passengers: Mrs. Jennings, Rev. Mr. Russ, Messrs. Puget Sound Letter. OLTUPIA, June 11th, 1871.

EDITOR STANDARD:—For the past six months the attention of the people in business parts of the Sound has been absorbed in railroad topics, which had so affected the minds of certain individuals, that it was deemed an urgency to build a branch of the Stockton and Monticela "Institution" at Stellacoom, for the accommodation of those unfortunates who had railroad on the brain. A few months ago when the contagion, was at its highest in Seattle, Whatcoom, Townsend, and other places on the Sound it was nothing strange to see some demented poor nothing strange to see some demented poor fellow rushing out of bed in his shirt, at the sound of some steamer, or mill whistle, and enquiring of his neighbours. "What time does the train leave." But now all this has changed. Common some once more controls the mass. You talk about rail-roads, now, in any of the above named places, and you will receive a sombling reals of and you will receive a snubbing reply of "d—n the railroad and R. R. Company,"
"Don't care a d— if there is never a railroad built here," Such are the general expressions now used, and such are my sentiments. The people of Olympia call me

" LIBERAL DICK, " from "All-Fools Bay," because I have donated "nine-tenths" of my real estate at Port Townsend, to the impoverished R. R. Co., on condition that a depot or tarminus be located in my vicinity. Well, I have some consolation in knowing that I am only one out of some 1,200 or 1,300, "Liberal Licks," who have donated in like manner with no better prospect of being on the Terminus, and some of them with not so good a prospect as mine. Townsend, Scattle or Whatcom may have a chance of being the place, but poor Olympia is entirely left on one side or the other of the rail, unless its citizens conclude to build a
